With a plethora of new books, DVDs, toys and products for mums, bubs and kids out each month, we've decided to showcase our fave pick for the month of May 2009.

[Little Squeaky Shoes](#)TM - Age: Newborn - Kids

Little Squeaky Shoes amuse little ones with their signature squeaking sound – my toddler adores them! Designed to motivate and encourage your little one to learn to walk, not only do they help develop your babies motor skills - you'll hear where they are at all times (great at the shops). Approved by Podiatrists, Little Squeakies are made from soft leather with flexible soles. The “squeaker” can also be removed if you want (it's a little valve you can pull out on spot) – either way they are stylish & cute for bubs on the go.
